

# Did You Know?

- The Protective Child Care Assistance Tip Sheet has been created to assist workers in determining whether a family qualifies for protective child care.
- Protective child care requests are intended to address immediate safety concerns and cannot be approved based on low or no income.
- Justifications should explain the family's current situation and how protective child care will reduce the level of risk.
- DCC-85 forms are signed by the FSOS and submitted to the local CCAP agent.

For more information, please see [SOP 30.19.2](#)
